- Even though the content of course was difficult especially after Kant, it was satisfactory because Robbie has explained everything in details and I love his energy during class hours because he is alsı happy and energetic and helpful when it is needed. The logical flow and requirements are also well thought by him. Thank you for everything Robert!

- I had some serious difficulties but I overcame them thanks to Robbie and the TA Vedat.

- Robbie was very helpful during the semstre, I liked his method very much. Maybe we could read textes before the slayts but considering the difficulty of textes and their historical period, it was benefical to see slayts and after read textes. I liked also his grade system, it involves many exam styles. Besides, Robbie's energy was extremly high and it takes us awake in the courses and he was also exremly helpful during online period. It was also beneficial to make discussion sessions with our TA, Vedat. He was also very hepful during the semestre.
